## ABOUT ME

*My passion became my profession. Associate Architect by designation and Full Stack Developer in Microsoft Stack by choice. Love to work with the latest technologies. Looking to work with Product companies rather than service providers. I can handle the entire application in Web (MVC/Blazor/React), Mobile (MAUI) & Desktop (WPF) with the backend as Web API using EF Core / ADO.Net with SQL Server. I am managing a team of 8 people on average from the last 5Y working on a product for one of our clients.*

## SKILLS

**Back End** - .NET 8, .Net Framework 4.8, MVC, Web API, C#, Node JS

**Front End Web** - React, Redux, Typescript, HTML, CSS, jQuery, Bootstrap
